How many times did each party agree with you?

CP = Constitution Party

RP = Republican Party

DP = Democratic Party

LP = Libertarian Party

Now you know which party is most compatible with your overall view, without regard to personalities and candidates. (In a few cases, one may dispute the positions above of various parties. We base these answers on actual policy and voting records in Congress and the White House, instead of the often meaningless platforms which state positions in which they do not believe one bit.)

NOW... go forth and vote your conscience – for a change!
